

MESSAGE FROM CFAO

I am fortunate to be associated with the Institute of Nano Science and Technology, Mohali and took over the charge of Chief Finance and Administrative Officer w.e.f. 13.07.2015.

My few days experience at INST has lead me to believe that the Institute is a vibrant place where lot of research activities are going on. INST has made a phenomenal growth in the past two and a half years. Ever since its setting up in January 2013, the Institute has made rapid progress in almost all the directions, be it research, academics, organization of conferences, workshops and related events. The outreach programme of the Institute has fascinated me most because of its uniqueness where the Director and other faculty members go to schools in rural and remote areas of the country to make students aware of science through interesting presentations about nature, simple inventions and outstanding changes brought about in the history of mankind.

I am sure that with the cooperation of all and guidance of Director, I will also be able to contribute in the development of the Institute.

UMESH CHANDRA PRASAD

Chief Finance and Administrative Officer
