

# International Workshop on Nano Science and Technology

**The Institute of Nano Science and Technology and the University of Sydney Nano Institute are holding collaborative two virtual workshops on 'BIONano' and 'NanoPhotonics, NanoEnergy and Quantum materials' with the aim to connect researchers across diverse fields for strengthening the interdisciplinary research**

## **Session 1 | BIONano**

**About the workshop:** Speakers on topics of nanobiomaterials, multifunctional nanoparticles and drug delivery.

**Event details:** When: Thursday 5 August. Time: 10.00am- 11.15am (IST), 2.30pm-3.45pm (AEST)

## **Session 2 | NanoPhotonics, NanoEnergy and Quantum materials**

**About the workshop:** Speakers on topics of self-assembled plasmonic nanoantennas, quantum technologies, energy conservation and more.

**Event details:** When: Thursday 5 August. Time: 11.30am-12.45pm (IST) 4pm - 5.15pm (AEST)
